Dear Paula,

Re : MMTS2, Fish Barrier Weir

As of the middle of October 2008 we shall be the new owners of sub 46 ( of 1) of the Farm Vaalekop No 3297 (Coldstream) – the proposed site for the Fish Barrier Weir.

We would like to therefore register with you as an interested and affected party and ask if we could be kept informed of any meetings via the following address.

: P.O. Box 95  
Howick  
3290  
Phone 033 3307216

Our two initial points of concern are:

- Our water supply is taken from a ram pump on the rivers right bank at the proposed site of the fish barrier. Construction of the coffer dam to divert the river left will cut off our water supply for domestic use. Also once the weir is completed will our intake pipe for the ram pump be able to make use of the increased height to which the river level will be raised?
- Will our rights to access the river for fishing and recreation be effected once the weir is constructed?

Regards  
Drs. Andy and Mary Lund.
